

E-Waste Collection Event Tips

Our goal is to collect as much **employee owned** electronic waste as possible. **Absolutely no government property will be accepted.** To ensure that we do not collect government property or items not recycled by CRS, please carefully inspect items and consider the following-

- We are not accepting fire alarms or White Goods (appliances).
- Please look for the NASA meatball on any electronic item that would indicate NASA property.
- Please look for an ACM tag that would identify NASA property. (see example below)
- Please look for a calibration sticker that would also identify NASA property.
- NASA property may have etching ingrained on the item.

The following image is an example of NASA identifying tags and stickers -

ACM tag
